Subject: RE: Time Frame for Reaching Oregon CZARA Decision

The estimated review timeline the technical team established is the team's best estimate at getting the CZARA review work done well considering members' other workload activities and other points factored in the schedule.

Ex. 5 - Attorney Client

We do have to recognize that State's riparian rule making process and our CZARA decision process are two independent processes moving forward on separate schedules. We also have to understand where the two intersect. Over the next few weeks, several of us at Region 10 will be spending a substantial amount of time preparing for two critical meetings in June to help DEQ and the Oregon Department of Forestry defend the State's water quality standards and move the riparian rule making process forward. R10 staff involved in this work are many of us working on the CZARA review.

I understand that next week the tech team will be revisiting the schedule to see if it can be adjusted, but I don't see where there is a lot of buffer.

Subject: Time Frame for Reaching Oregon CZARA Decision

This looks good, Allison. Thanks for reminding us of the basis for a Jan 2015 decision timeline. While I do think it's feasible to finish a few months sooner if we absolutely needed to (by doubling down and working concurrently on different issues), given everyone's work load beyond Oregon CZARA, the Jan 2015 time frame is both reasonable and fairly aggressive. Additionally, the timing has the effect of signaling to DOF that we are paying attention to their efforts to strengthen their

riparian rules by year's end. And that may be important psychologically.

Subject: Re: Summary of next week's CZARA calls

All--

Reattaching the estimated review timeline (with interim milestones) I had included at the end of the "Key Issues for May 7 NWEA Meeting" doc. I allowed 2 months for clearance at the end which may be a bit excessive but given holidays, perhaps not. Also Tech Team is now a little behind in their review schedule since deadline extension discussions have been all-consuming recently we have not had time to focus on our review. I did not factor in FOIA response time either which will also take up some of the tech and legal team's time during the early part of this review schedule.

Subject: Summary of next week's CZARA calls

Hi Everyone – I just talked with Christine to confirm the calls/meetings on CZARA for next week. Here they are:

Monday, May 19 – 10-11AM PST/1-2pm EST – Joelle, Lynda, and Christine will be on the call with the rest of the team. One of the goals of the call is to make sure the tech team can take a final action to disapprove or public notice an intent to approve by January 31, 2015. Phone #: **Non-Responsive**

Tuesday, May 20 – 10-11AM PST/1-2pm EST – Joelle, Lynda, Christine, and the attorneys will meet to discuss legal questions from Lynda. Call-in # TBD.

Tuesday, May 20 – 12:30pm PST/3:30 EST – This is a proposed time to talk with NWEA, if JB is able to make this time. If she is, then we'll propose it to NWEA.

Subject: OR CZARA Schedule Extension request

We're gearing up to check-in with NWEA next Tuesday. One central purpose of that check-in is to tell them what length schedule extension we need. Are we asking for a schedule extension until January 31, 2015? I think we need to be clear on what we want. January 2015 has been my operating assumption.

Thanks.

P.S. I apologize for swamping your email boxes with too many messages today.
